# COMPUTER & AUDIO VISUAL RENTAL SPECIALISTS

Established in 1987, Microhire specialises in the rental of Computers and Audio Visual equipment to the corporate and government sectors.

We are industry leaders in areas of:

**Service & Price** – We provide an exceptional level of service at an affordable price.

**Leading Edge Equipment** – We invest heavily in the latest technology provided by the industry's leading suppliers.

**Innovative Solutions** – We develop Computer and Audio Visual solutions that push the boundaries, providing a competitive edge to our customers.

**Quality Product** – All rental equipment is fully serviced before each rental and maintained in excellent working order.

**Delivery & Installation** – We provide same day delivery, including onsite service and installation if required. All systems are tested and configured prior to delivery.

**Data Security** – All equipment is completely formatted to ensure no residual data remains, and virus checked.

**Expanding National Network** – Adelaide, Brisbane, Canberra, Gold Coast, Melbourne, Sydney.

**Ph: 1300 660 099**

## LOOKING FOR A TOTAL COMPUTER SOLUTION?

With technology moving so fast it can be extremely costly keeping pace with the latest developments. Microhire can provide you with a cost effective solution for your computer requirements. We can provide the latest computer equipment to suit your business needs, without the large capital outlay.

### Resource overload & special projects

Computer resource overload or special projects can place a great deal of pressure on an organisation. It's often difficult to justify capital expenditure for an urgent job or a project that will only run for a short time leaving you with surplus equipment upon completion. Renting is easier and more cost effective for the duration of the project or contract.

Microhire has extensive experience in assisting organisations with computer breakdowns and computer resource overload. This has enabled us to create a service that minimises the impact on your resources caused by overloads, breakdowns and special projects.

Individually tailored programs for short and long term supply of computer equipment can be developed to ensure special projects' needs are met. Logistics, special configurations and deadlines are all taken into account to ensure our systems fulfil your requirements.

## Flexible Computer Renting Solutions

### Service and Maintenance Programs

Software Upgrades	Network Administration
Regular Systems Checks	Server Administration
Maintenance Programs	AntiVirus Processes
Backup Systems	Connectivity Arrangements

### Microsoft Authorised Software Provider

Microhire has been appointed as an "Authorised Microsoft Preinstalled PC Rental & Leasing Outlet".

## Training

Microhire recognises that quality products and reliability are the critical factors involved in the hire of computer equipment for training programs.

Our experienced consultants work closely with you to establish the best computer hardware for your requirements. The configuration of our equipment is tailored to meet your needs and is thoroughly tested prior to delivery.

Microhire can also help simplify your PC training by establishing a standardized configuration and installation.

## Innovative Solutions

We can reduce your workload at no additional cost to your organisation. Our Corporate Image Program supplies our customers with tailored pre configured machines to allow for "plug and play" delivery to sites all over Australia.

Microhire can reduce your workload and increase your levels of service to your internal clients saving time and money. Ask us how to become a member of our Corporate Image Program at no additional cost.

## Leading Edge Brand Name Equipment

## BE SEEN, BE HEARD AND BE REMEMBERED.

Successful business presentations are about capturing the attention of your audience and getting your message across. Microhire provides leading edge high quality Audio Visual solutions to ensure that your meeting meets your objectives. The right mix of vision, sound and computers will ensure the greatest impact on your target audience.

## CAPTURE YOUR AUDIENCE!

### Be Seen!

First impressions count. Stand out from the crowd. Visual impact is just as important as the content of your presentation. Making use of today's AV technology can give you a competitive edge. Large screen displays have improved greatly with the introduction of digital projection and new screen technology. Use it to your advantage!

## Be Heard!

Can the people in the back row hear you? Great presentations capture the attention of the entire audience. You will soon know if the sound system is inadequate. It's important to provide every member of your audience with clear, intelligible sound. This is a vital support to your visual presentation.

## Be Remembered!

Creative use of lighting and staging systems to "set" your presentation area will convey a professional image to your audience. Our AV consultants are experienced in transforming any room into a presentation platform. Keep it simple, be creative and be remembered!

It is universally agreed that by appealing to all senses your audience will retain more information and take more away from your presentation. Your Microhire Account Manager is trained in the art of delivering your message and can offer equipment choices from the world's leading manufacturers to provide maximum impact.

## We Go Where You Go!

Microhire offers our regular clients the convenience of a single, national Account Manager to service your needs.

Imagine taking an event on the road and only having to explain your requirements once!

Your Account Manager will be someone with a great deal of experience working in many and varied venues around Australia and even overseas.

It doesn't matter if it's a hotel or a conference centre – Your Account Manager will investigate the unique requirements of every venue and liaise directly with the venue staff to make your event go smoothly.

Quoting, negotiations and billing can be centralised from one location with one person, reducing your workload and streamlining the entire event.

## ONE COMPANY ONE POINT OF CONTACT

for exhibitions

## LOOKING FOR A TOTAL EXHIBITION SOLUTION?

### Conferencing, Exhibitions & Events

When organising a conference, exhibition or event, using Microhire computer and audio-visual equipment makes it easy. Microhire will consult, supply, support, install and set up. Then at the end of the event, pack down and take the goods away for you.

Microhire is a member of both the Exhibitions Industry and Meetings Industry Associations and has vast experience in providing Computer and Audio Visual equipment to exhibitions, conferences and events.

Our success in supplying solutions to the Conference and Exhibition industry comes from a unique blend of the latest technology, experienced technical staff and a customer focused consulting team.

Our products are currently used in many areas of the conference and exhibition industry, and include:

- > Large Screen Plasma Monitors & Plasma Walls
- > Data Projectors for small boardroom Meetings & Conferences
- > LCD Data & Video Monitors
- > Internet Lounge ISDN Stand Alone and Networked Computers
- > Lecterns and Staging
- > Sound Systems and Microphones

Exhibiting at an Exhibition or Trade Show is a very effective marketing and promotional activity that puts you face to face with a captive audience.

There is a compelling argument to incorporate Exhibitions into your marketing activities and we are ready to assist in making your display booth a cost effective and productive experience.

## DESKTOP PC

# MICROHIRE FOR COMPUTERS, MEETINGS & EVENTS

## TO PLACE YOUR ORDER

If you have a sound understanding of your requirements you can place your order by phone, fax or e-mail. Please include the following details and a customer service representative will call you to confirm all the necessary information.

- 1 Equipment required
- 2 Preferred delivery date
- 3 How long you need the equipment.

## ESTIMATES AND QUOTES

If you require assistance in determining your equipment needs, please call and speak with our customer service team. Our friendly customer service staff are fully trained in identifying your presentation needs, selecting appropriate equipment packages and creating effective visual displays to achieve the result you have in mind.

We will provide a competitive "fixed price" written quotation for your approval. The moment you confirm our quotation, all equipment is immediately reserved for your exclusive use.

With Microhire, your computer, presentation or display solution is just one call away.
